The prior art of record teaches that it is well known to store speech which is to be recognized and then to iteratively compare words or other stored patterns against the input speech until one is recognized or until all stored patterns have been compared. However, the prior art does not teach that the stored patterns ("vocabulary") should be updated ("amended") after three patterns have been unsuccessfully recognized.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
